Atlanta, GA

Atlanta Motorsports Park is a private country club that will offer a membership for serious [motor sports](#) enthusiasts looking for executive level privileges and amenities.

Racing fans and driving enthusiasts are now able to get a taste of what the new Atlanta Motorsports Park has to offer for country club opportunities. (AMP) » [More Photos](#)

We have spared no expense designing our first class driving course while we have also achieved our goal to have park facilities commensurate with this same level of excellence. Concentrated at the center of our extreme racing environment is fun but at the front of our mind is everyone's safety. Atlanta Motorsports Park values safety first and we have a zero tolerance policy for unsafe driving and unsafe [vehicles](#).

Each year, more and more race tracks fall victim to "progress," with urban encroachment, noise restrictions and environmental concerns all taking their toll. When we heard that someone was building not only a new track, but facilities and amenities designed to minimize their impact on the environment, we wanted to help get the word out.

Atlanta Motorsports Park, a motorsports country club for fast/exotic cars, bike and karts, recently received full zoning approval and is moving forward on its Dawsonville, GA. facility. When completed this autumn, AMP will feature one of the best located tracks in the United States, a multi-configuration road course, 120 feet of elevation changes, 2.77 miles in length, a club house with restaurant and fitness room, pool, tennis court, garages and covered pre-grid areas. This world class facility is being created with the "green/sustainable" objective of reducing its carbon footprint.

To help celebrate the project moving forward, Atlanta Motorsports Park is extending pre-construction membership pricing only to Skip Barber customers. Several levels of membership are available, from Kart/Mini Motard memberships up to the top-level Diamond membership.
