

**Update to Members and Friends of Atlanta Motorsports Park
Decision Postponed Until April 13 Council Meeting For Review of Facts**

We remain optimistic about the final approval of our zoning request and fully expect a favorable decision at the Dawson City Council Meeting on April 13. We believe the facts will outweigh the concerns. Our entire team is working diligently to solve any outstanding concerns of the citizens and city officials to make this a win-win for all parties.

The final sound study has been completed and shows the levels in the neighboring homes to be below many of the national and global levels of nuisance sound levels. AMP has made these adjustments even though there are no sound regulations in the city or county.

Founding Memberships

If you have already become a Founding Member, you're part of a select few and belong to a prestigious member class. You've also seen the value in joining AMP at pre-construction benefits and pricing. Already, members include several sports and entertainment celebrities:

- o Actor Patrick Dempsey (Hypersport Racing)
- o Atlanta Braves Chipper Jones
- o Atlanta Falcons Michael Jenkins
- o SPEED Channel's Bob Varsha, who will also be the "voice" of AMP
- o Road Race Champions Jack Baldwin and David Murry

Pre-construction/zoning pricing for Founding Members continues; however this will only last through the final zoning. These benefits include honor and recognition, additional family members with no initiation fees, karting access, and reduced prices/fees.

Please encourage your friends and associates that have an interest in joining as a Founding Member to connect quickly with the team at AMP to secure their spot before the zoning is final. Please keep in mind that there are very few that will have the honor and prestige of being a Founding Member at Atlanta Motorsports Park.

Our goal is that the next news you hear from AMP will be that the permits are approved and we are breaking ground!

Thanks for your continued support and confidence in our vision of Atlanta Motorsports Park.
