

FOR IMMEDIATE RELEASE:

Atlanta Concrete Artist is supporting the only green – sustainable racetrack in the world!!

Along with installing decorative concrete work at the facility, Atlanta Concrete Artist will be focusing their efforts on offering the members of this amazing facility flooring options for their garage space. "I was shocked when I saw the quality of Atlanta Concrete Artist's work, I had no idea that this level of work or artistry could be applied to concrete in a garage. I was impressed and felt Mike's work would dovetail well into our business with our high level clients." Jeremy Porter – CEO Atlanta Motor sports Park-Dawsonville GA.

“ I truly appreciate the enthusiasm that car aficionado's feel toward racing and the cars they drive, we want to enhance their experience at the sports park.” states Mike Jensen –Atlanta Concrete Artist's founder.

Slated to open in the spring of 2011, Atlanta Motor sports Park (the first green/sustainable commercial/industrial development in North America) is a private country club for serious car enthusiasts. With amenities such as an indoor/outdoor play area, pool, fitness center, restaurant, tennis court, basketball court, fire pit, hiking trails, kart track and clubhouse. The only difference between AMP and an executive golf club is the pace of the game!

We will be offering members services that will include everything from single color protective coatings to multi-color custom work. We can install

the logo of your exotic car, sports team, family crest or perhaps a quote from your favorite movie on your floor in any color combination that you could imagine.
