LOS ANGELES, CA--(Marketwire - April 6, 2010) - When guests at Atlanta Motorsports Park make a men's room 'pit stop,' they'll have a high-tech, high-performance experience with Falcon Waterfree urinals. The touch-free, waterfree urinals are one of several environmental features at the only green sustainable motorsports park in the world and are estimated to save more than 1 million gallons of water per year, enough to fill 200 tank trucks.
