

Atlanta Motorsports Park Launches “Drifting” Membership and “Drifting” School.

On Tuesday, August 19th, 2009, Atlanta Motorsports Park announced the “drifters” program and driving school as its newest class of membership.

Atlanta Motorsports Park incorporated a drifting circuit as part of the course design from the famed Formula One engineers at Tilke Architects. Jeremy Porter, AMP Founder and CEO, said, “we see this market as one that is emerging and one we need to focus on.” In the drift circuit “The Carousel” at **Nürburgring** has been mimicked using 6 degree banking in the corner. A short video (not generated by AMP) of the actual track can be seen at <http://www.youtube.com/watch?v=A0WgtttscBY>. You can also view the drift section of the track at <http://www.atlantamotorsportspark.net/pdf/speed.pdf>

Jeremy Porter said, “I have been working with Dan Willie and Tracy Shayhorn at Battleground Motorsports Engineering <<http://www.batlground.com/>> to create both a membership program and drifting school that is affordable and makes sense for this market. We understand the limited budgets and we feel that we can create a membership price point that will work with this market.”

Please watch the AMP web site for details and price points regarding the drifting programs in the next 30 days.

Atlanta Motorsports Park is a private country club that offers membership for motorsports fans of all motorsports backgrounds.
